Sir:

This letter and the accompanying drawing change is being submitted in response to the Examiner's requirements in the Office Action of October 30, 2002.

In the Office Action, the Examiner objected to the drawings, stating the sensor introduced into the transducer as claimed in claim 3 must be shown. The Examiner correctly identified a portion of the specification describing the sensor (page 19, last sentence through page 20, line 1).

Enclosed herewith please find the second of the four drawing sheets originally filed, changed by the addition of Fig. 3a, indicated in red as required by the Examiner. In the response to the Office Action, the specification has been amended to reflect the addition of Fig. 3a.

The Examiner is requested to approve the change in the drawings.

Respectfully submitted,
